Execution environment:

Microsoft Windows 10

Development environment:

C++ Programming Language with Code Blocks IDE 20.3

Operation Method:

Input of integers and Elimination of word from the output list.

Why This Environment:

Ms Windows is very user friendly and I am very familiar with this environment. But I can operate other environments too such as linux. Among three languages I used C++ as it is very friendly and easy to handle and Codeblocks is a very simple compiler.
